### Importance of the Study

Human values are very important in today's world. The human values are the basis for any practical life within society. They build space for a drive, a movement towards one another, which leads to peace. In simple term, human values are described as universal and are shared by all human beings, whatever their religion, their nationality, their culture and their personal history.

### Objectives of the Study

From the statement of the problem, the following object have been framed for the present study.

1. To study the significance of human values in life.
2. To study the concept of human values and society

### Data Analysis

Indian culture plays an important role in inculcating ethical values. Indian values gave prime importance to right to happiness for all human beings. Indian culture is complex in nature and with diversity in religion and their customs we live with unity. Human values are inculcated from the Vedic teachings to lead a peaceful integrated life. Indian Culture shows us evidences of development of values in life by training and experience. The Bhagawad Gita is considered as the essence of the Vedas and Upanishads. Important values that are ever relevant and unchanging are found in the form of scriptural texts in the Indian culture.
